Education

AES SR. SEC JanakPuri   **April 2018**
CBSE Science (93.2%)   *New Delhi, India*

AES SR. SEC JanakPuri   **April 2020**
CBSE PCM (94%)   *New Delhi, India*

Bharati Vidyapeeth's College of Engineering   **August 2020 - Ongoing**
Bachelor of Technology in Information Technology(CGPA of 9.107)   *New Delhi, India*

Projects

E-COMMERCE | *ReactJs, NodeJs, ExpressJs, MongoDb Atlas* | Live Link   **4**
- Interface which will give look and feel of a e-commerce store with catalog of dynamically generated products which user can choose from
- Both user and seller can perform **CRUD** operations over the products. For authorization **JWT tokens** were used and for encryption password hashing was achieved using **BYCRYPT**.

CODE-ALONG | *ReactJs, NodeJs, ExpressJs, Socket.io* | Live Link   **4**
- It is an interface where multiple users can join same room and can edit and see code in real time. It is best suited for online coding interviews.
- **Socket.io** was used to make realtime connections. **ReactJS** was used for frontend and **ExpressJS** for backend. Various external libraries such as **Avatar, uuid**(for making unique id) were also used and app was deployed on heroku.

BLAWG | *React Js, Redux, MongoDB, NodeJs, ExpressJs* | Live Link   **4**
- It is an Blogging website with all basic CRUD applications ranging from user **authentication** to **ExpressJS**.
- The state management was done with **Redux toolkit** and various other libraries like **react-hot-toast** and **JWT token** (for user authentication) and **bycrypt** for password hashing was used

Experience

Brain Mentors   **August 2022**
MERN Stack Training   *Delhi, India*
- Created Basic **MVC** React Applications like calculator, test engine and salary calculator. Learned to create **Own Server** using Node Js without the use of ExpressJs.
- Learned to work with various dev tools and packages like **postman, nodemon, nginx, open ssl, axios**. Created a major project in designing frontend and backend of dominos website and presented the same.
